

Meio Ambiente

Protecting the environment is everyone's responsibility, the issue of deforestation has become a growing problem. The reforestation would be a long-term solution.

What do you know about the greenhouse effect?

A documentary about global warming, an evident climate imbalance. The hole in the ozone layer, natural disasters are becoming more frequent.

This is an indangered to the species, they were talking about extreme temperatures in Brazil. We must do something about air pollution, there is a nature reserve near here.
