

THE MYSTERY OF FLIGHT 578

On a gray and cloudy morning, three brothers take a direct flight to Germany, flight 578. They were all very anxious to get to know the country and its cultures, they arrived two hours early at the airport, so they didn't run the risk of miss the flight. But there was an unforeseen event, the flight would have to be canceled and rescheduled for the afternoon, due to the big storms that were expected to arrive.

The brothers chatted away all morning, they told each other what they wanted to do in Germany and they didn't even see the time pass, and they already called their names to board. They said goodbye to their parents and got on the plane, settled in and were ready for another adventure. The flight would be delayed due to the distance, but it took longer than expected.

The brothers' parents were apprehensive, waiting for a message from one of them saying that they were already in Germany and well. But that didn't happen, the plane mysteriously disappeared from the radar, no one could locate it, it was not known if it had fallen into the sea or made an emergency landing somewhere in this world.

Everyone was desperate, it was a full flight, with many people who had families. Everything turned into chaos, news ran everywhere, days and even months passed and the mystery of flight 578 still hadn't been solved. No plane wreckage was found at sea or anywhere, there was no trace to follow, no one knew what to do. For three years people searched to find out what had happened to the plane, but no search was successful.

Until then, a plane lands at the same airport that took off plane 578. And it was 578 himself, who had landed, everyone was alive and well.

The airport was crowded with people again, all very curious to know how this was possible, the passengers' families were happy, scared and confused with everything that was happening.

The three brothers ran to hug their parents, who had lived three years worried and without news of their children. And it seemed that not all that time had passed, because none of the passengers had aged, they were all identical to three years ago. The search for the plane was ended and now a new inquiry has been opened, to find out how all this could happen. This is worth a lot of investigation and research, for the next one.

Tradução: Mistério do voo 578.

Em uma manhã cinzenta e nublada, três irmãos pegam um vôo direto para a Alemanha, vôo 578.

Estavam todos muito ansiosos para conhecer o país e suas culturas, chegaram duas horas antes no aeroporto, então não correram o risco de perder o voo. Mas houve um imprevisto, o voo teria que ser cancelado e remarcado para a tarde, devido às grandes tempestades que se esperavam.

Os irmãos bateram papo a manhã toda, disseram uns aos outros o que queriam fazer na Alemanha e nem viram a hora passar, e já chamaram seus nomes para embarcar. Despediram-se dos pais e embarcaram no avião, acomodados e prontos para mais uma aventura. O voo iria atrasar devido à distância, mas demorou mais do que o esperado.

Os pais dos irmãos estavam apreensivos, esperando uma mensagem de um deles dizendo que já estavam na Alemanha e bem. Mas isso não aconteceu, o avião sumiu misteriosamente do radar, ninguém conseguiu localizá-lo, não se sabia se havia caído no mar ou feito um pouso de emergência em algum lugar deste mundo.

Todos estavam desesperados, era um voo cheio, com muita gente que tinha família. Tudo virou um caos, as notícias corriam por toda parte, dias e até meses se passaram e o mistério do voo 578 ainda não havia sido resolvido. Nenhum destroço de avião foi encontrado no mar ou em qualquer lugar, não havia rastro a seguir, ninguém sabia o que fazer. Durante três anos, as pessoas procuraram descobrir o que havia acontecido com o avião, mas nenhuma busca foi bem-sucedida.

Até então, um avião pousa no mesmo aeroporto que decolou o avião 578. E era o próprio 578, que havia pousado, todos estavam vivos e bem. O aeroporto estava lotado de gente novamente, todos muito curiosos para saber como isso era possível, os familiares dos passageiros estavam felizes, assustados e confusos com tudo o que estava acontecendo.

Os três irmãos correram para abraçar os pais, que viviam três anos preocupados e sem notícias dos filhos. E parecia que nem todo esse tempo havia passado, porque nenhum dos passageiros havia envelhecido, eram todos idênticos a três anos atrás. As buscas pelo avião foram encerradas e agora um novo inquérito foi aberto, para saber como tudo isso pôde acontecer. Isso vale muita investigação e pesquisa, para o próximo.
